

EMERGENCY SIT AND WAIT CLINICS

These emergency clinics are in place to help manage the volume of patients requesting urgent appointments and to avoid same day hospital/A+E attendance. The volume of demand will determine how long you will wait to be seen.

PLEASE NOTE THIS IS NOT A DROP IN OR
AN OVERFLOW CLINIC
AN APPOINTMENT IS NECESSARY

Reception will ask the nature of your problem for triage purposes so you are seen by the most appropriate clinician. You will then be seen by a member of our Duty Team.

The clinician will only deal with the immediate emergency. You will be asked to book a further routine appointment for additional issues.
